

Countless parents in our community are struggling over how to respond to their children's requests to attend camp when their families simply cannot afford the expense. So long as there is a child in the community who cannot go to camp, our responsibility towards each of them remains unfulfilled.

## When summertime rolls around...

To this end, Achiezer is now introducing an innovative summer solution in which a community-wide scholarship fund is created to allow these children to attend summer camp through the generosity of our entire neighborhood! Together with your help, we can try to ensure that every child will receive an ideal summer experience this year.

**Every penny collected will go directly towards camp scholarships!**
